INTRODUCTION

In a previous 1961 Census report (See Bulletin 1.2-6 of Volume I-Part 2), the population of Canada was shown by religious denominations and sex. The tables of this report provide additional information on this subject by showing cross-classifications of religious denominations by age groups and sex.

Table 85 shows this information for Canada by rural farm, rural non-farm and urban according to five-year age groups and detailed religious denominations. In the tables for provinces, cities and towns of 30,000 and over, and census metropolitan areas (Tables 86 to 88) broader classifications are used.

In the 1961 Census, enumerators were instructed to record the specific religious body, denomination, sect or community reported in answer to the question "What is your religion?". Thus, census figures do not measure church membership or indicate the degree of affiliation with any religious body. Also, enumerators were instructed to accept without question the denomination reported by respondents. They were to enquire more fully when "Christian", "Protestant", "Believer", etc. were reported but were to accept these if a specific denomination could not be given. Further, if a person stated he had no religion, the entry "none" was recorded. The age classifications are based on a definition which specifies completed years of age at last birthday prior to the census date of June 1, 1961.

Un rapport antérieur du recensement de 1961 (voir Bulletin 1.2-6 du 1er volume-2e partie) classait la population du Canada selon les religions et le sexe. Les tableaux du présent rapport apportent des renseignements supplémentaires sur le sujet en reclassant les religions par groupe d'âge et sexe.

Le tableau 85 donne ces renseignements pour le Canada, par région rurale agricole et non agricole, et urbaine selon le groupe quinquennal d'âge et la religion. Les tableaux des provinces, des cités et villes de 30,000 et plus et des zones métropolitaines de recensement (tableaux 86 à 88) donnent des classements plus larges.

Au recensement de 1961, l'agent recenseur devait inscrire la religion, la confession ou la secte déclarée en réponse à la question "Quelle est votre religion?". Les chiffres du recensement ne mesurent donc pas les effectifs d'une religion ni le degré d'adhésion à une religion. L'agent recenseur devait aussi noter sans demander de précisions la religion déclarée, sauf à la réponse "Chrétien", "Protestant", "Croyant", etc., qu'il devait également noter si le répondant ne pouvait préciser davantage. De plus, toute personne déclarant n'avoir aucune religion a été inscrite sous "aucune". Les classements selon l'âge se fondent sur une définition qui exige les années révolues d'âge au dernier anniversaire antérieur à la date du recensement, 1er juin 1961.
